

Xaron

Hardwearing, adaptable and affordable, Xaron offers many vanity options in high pressure laminated board. With several edge profiles available and a wide range of colours to choose from, it is understandably the most popular vanity unit for conventional washrooms, due to its design flexibility yet reasonable cost.

High pressure laminated tops and under-unit panels

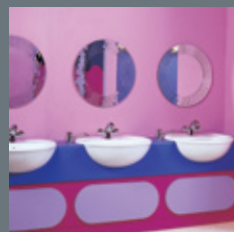

Wide range of colours

Children's height available

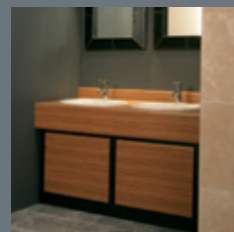

Option of semi-recessed vanity top

Bullnose

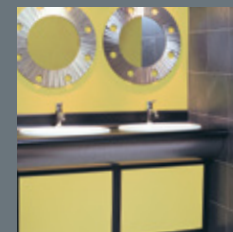

MVDO Standard - Children's height

MVUD Upstand

MVS Vanity suite

MVBU Bullnose

Options

Xaron vanity units are available in five standard profiles, providing several options for complementing your chosen cubicle system. A baby change option comes with a front anti-roll edge, and children's-height units are also available. Light pelmets are manufactured in four standard profiles to correspond with vanity unit styles.

Pre-laminated framework

Pre-hung removable panels

Factory cut basin apertures

Postformed or ABS lipped panels

Lockable panel option

Storage cupboard option

Complementary light pelmets

MVBU - Bullnose High pressure laminate top with covered upstand and 50mm bullnosed front edge, incorporating a profiled metal fascia that corresponds with the Modelle cubicle range.

MVUD - Upstand High pressure laminate top with postformed downstand and bottom edge. Integral covered upstand with postformed top edge. Semi-recessed wash hand basin version available.

MVDO - Standard High pressure laminate top with postformed downstand. Postformed bottom edge and lipped back edge. Semi-recessed wash hand basin version available.

MVS - Vanity suite High pressure laminate top with postformed downstand. Postformed bottom edge and lipped back edge, complete with removable access lid. Integral covered upstand option.

MVBC - Baby change High pressure laminate top with front anti-roll edge, fully postformed including internal corners and top edge, with integral covered upstand.

Specifications

Xaron MVBV

Reference: Xaron Bullnose
