---

Metal escutcheon plate for holding a name or number card

---

Cam-locks as standard, with range of other options including RFID & combination locks

---

Several integral benching configurations

---

## Specifications

### ORLA STEEL LOCKERS

Reference: Maxwood ORLA STEEL LOCKERS

#### LOCKER CARCASS

Core Material: Manufactured from 0.8mm aluminium.  
 Base: Formed as part of the 60 mm integral plinth with floor fixing points.  
 Colour/ Finish: Polyester powder coated to colour chosen from Maxwood selector (or RAL of your choice - extra cost).

#### DOORS

Core Material: Manufactured from 0.8mm aluminium.  
 Colour/ Finish: Polyester powder coated to colour chosen from Maxwood selector (or RAL of your choice - extra cost).

#### IRONMONGERY / ACCESSORIES

Hinge: Steel 'five knuckle' semi concealed hinge.  
 Lock Type: Robust cam lock with two keys.  
 Numbering: Plastic escutcheon plate for holding a name or number card.  
 Hooks: Hanging rail & coat hooks fitted in one & two compartment lockers.

#### PLINTH

Lockers fixed onto a floor mounted MRDMF ladder work plinth, which is faced in a laminate of client's choice.

#### DIMENSIONS

H 1775mm W 300mm D 450mm (allow additional 2mm between lockers for lateral fixings).

#### OPTIONAL ENHANCEMENTS

- Lock options:
  - Digital combination lock
  - RFID touchless lock
  - Coin refund lock
  - Swivel latch - for users own padlock.
- Numbering options:
  - Engraved numbering to doors
  - Vinyl numbering to doors
- Integral Opex bench (with or without HPL under panels)
- End panels for exposed locker sides
- Above locker panels - secret fixed laminate bulkhead panels to ceiling
- Sloped top capping - ideal for anti-storage or hygiene requirements

Note: Any optional enhancements required are clarified at point of specification.
